| Blur score     | 619.19  | Detected issues | - Image resolution is lower than recommended. |

## AI explanation

### AI explanation

The image was classified as non-cancer by the AI model. This result does not rule out disease. Seek medical evaluation for persistent or suspicious symptoms.

## Recommendation

### Clinical recommendation

The AI model classified the image as non-cancer. This does not rule out disease. Persistent ulcers, lesions, pain, bleeding, or other suspicious symptoms still require professional medical evaluation.

## Important medical notice

### Medical disclaimer

This AI system provides preliminary screening support only. It does not diagnose oral cancer. A qualified dentist, doctor, or oral oncologist must perform clinical examination and biopsy when required.
